StirMATE®
"Ending the hand stirring era"

OMNI-XL

EXTRA LARGE POT STIRRING ATTACHMENT
Adjusts from 2-Qt to 5 Gallon Pots
Stainless Steel

The OMNI-XL stainless steel stirring attachment enhances the functionality of the StirMATE. This attachment expands and adjusts to fit pots as small as 2 quarts up to 5 gallons, accommodating pots 7-13 inches wide and 4-12 inches deep.

- KEY FEATURES -

- Versatile Design: The OMNI-XL consists of a square rod with adjustable holes, accommodating up to four U-paddles. The U-paddles can be extended or retracted to match the radius of the pot.
- Adjustable: Easily increase or decrease the stirring radius by adjusting the paddles through the rod's holes.
- Configurable U-Paddles: Comes with four configurable U-paddles to suit various cooking needs.
- High-Temperature Applications: Crafted for diverse cooking tasks, the OMNI-XL excels in high-temperature applications, from coffee and nut roasting to candy-making and roux preparation.

- SET UP TIPS -

Efficient stirring depends on the pot's height, depth, and the viscosity of its contents. Start with one paddle at the bottom of the rod. Typically, one or two paddles are sufficient, but additional paddles can be used for larger or deeper pots.

- Centering: Ensure the rod is centered in the pot by adjusting the StirMATE's body in its clamp.
- Scratch Prevention: Silicone tubing is provided for the bottom U-paddle to prevent scratching. This is optional and can be attached as needed.

- ABOUT -

We are dedicated to exploring the numerous applications of the StirMATE system and are available to assist you. Please contact us through our website chat box, or send us an email.

If your StirMATE saves you time and work... please give it a 5-Star Amazon review.

Thank you,
